FREQUENTLY ASKED QUESTIONS (FAQ) – MY50 UNLIMITED TRAVEL PASS ON TNG EWALLET APP

1. **Are there any differences between subscribing the My50 pass on the TNG eWallet app and from other channels?**
   The benefits of the My50 pass remain the same whether you subscribe it through the TNG eWallet app, or via Rapid KL Customer Service Counters. However, when you use the TNG eWallet app, you can link your pass directly to an Enhanced NFC (Near Field Communications) - enabled TNG card — offering greater flexibility and ease of use.

2. **Are prices for My50 pass on TNG eWallet app different?**
   No, prices for My50 pass on TNG eWallet app are the same as purchasing at Rapid KL Customer Service Counters. There are no additional surcharges for buying from the Touch n Go eWallet app.
3. **What are the eligibility criteria to purchase Mrvy50 pass?**
   All Malaysian citizens with a valid MyKad or MyTentera are eligible to purchase the My50 Pass. Below are the available methods of purchase. Purchase Methods:

   - Via Rapid KL Customer Service Counters.
   - Via TNG eWallet: You will need a Touch 'n Go NFC Card, an NFC-enabled smartphone, and a TNG eWallet account that has been eKYC-verified.

4. **Can I purchase a My50 pass on TNG eWallet app and link it to MyKad?**
   No, all purchases made on Travel Pass in the TNG eWallet app can only be linked to an Enhanced NFC-enabled TNG card.

5. **Can I view passes that I purchased from Rapid KL Customer Service Counters in the TNG eWallet app?**
   No, only passes purchased directly through the Travel Pass feature in the TNG eWallet app will appear in the app. Passes bought via Rapid KL Customer Service Counters are typically linked to your MyKad, not to your Enhanced NFC-enabled TNG card — which is why they won't be visible in the TNG eWallet.

6. **Will I be charged SST (Sales and Service Tax) when purchasing the My50 Pass?**
   No. The My50 Pass is exempted from SST.

7. **Can I pause or extend my My50 Pass if I don't use it?**
   No. Once activated, the My50 Pass runs on a continuous 30-day cycle. It cannot be paused, extended, or carried forward. Even if unused, the validity period continues — so it's best to activate it only when you're ready to travel.

8. **What happens if my My50 Pass is expiring during travel restrictions or emergencies?**
   All My50 Passes follow the standard 30-day expiry policy. Unfortunately, extensions are not offered — even in cases of travel disruptions or emergencies. We recommend activating your pass only when you're certain on using it actively.

9. **Can I terminate or cancel my active My50 Pass before it expires?**
   No. Once activated, the pass is valid for the full 30-day period and cannot be cancelled, paused, or refunded — even if unused.

10. **What do I need before I can subscribe to the My50 pass through the TNG eWallet app?**
    Kindly ensure you have the following ready:

    - A TNG eWallet app account that has been verified (e-KYC completed)
    - An Enhanced NFC-enabled TNG card
    - A smart mobile phone with NFC functionality (kindly ensure your device supports NFC)

FREQUENTLY ASKED QUESTIONS (FAQ) – MY50 UNLIMITED TRAVEL PASS ON TNG EWALLET APP

11. What is e-KYC and how do I complete it?

e-KYC stands for electronic Know Your Customer — it is a quick identity verification process required to use certain features in your TNG eWallet app, including the purchase of My50 pass.

To complete e-KYC:

- Open your TNG eWallet app
- Go to 'Profile'
- Tap 'Verify Account' and follow the next steps (you will need your physical MyKad ready and a quick selfie)

12. How do I check if my e-KYC is completed?

Open your TNG eWallet and go to your Profile. If it shows "Verified Account" and you are good to go. If it shows "Unverified" or "Pending", follow the on-screen steps to complete the process.

13. How do I turn on the NFC on my phone?

Here's how to enable NFC (may vary slightly depending on your phone model):

Android:

- Go to Settings
- Tap Connections or Connected Devices
- Select NFC, then turn it ON

iPhone:

- If you're using iPhone 7 or newer, NFC is automatically enabled — just make sure you are using the latest iOS.

14. Can I use a phone that is not NFC enabled?

Unfortunately, no. To subscribe My50 pass on TNG eWallet app requires NFC function to scan your Enhanced NFC-enabled TNG card.

15. How to suubscribe My50 pass in my TNG eWallet app?

It's easy! Just follow these steps:

Step 1: Open your TNG eWallet app.
Step 2: Complete your e-KYC.
Step 3: Go to 'My Favourites'.
Step 4: Select 'More'.
Step 5: Scroll down to the 'Transport' section.
Step 6: Select 'Travel Pass'.
Step 7: Select your chosen Enhanced TNG card to be encoded with My50. If you have not linked your card, you need to add an Enhanced TNG card into the app.
Step 8: Scan your card using your phone. Just hold your Enhanced NFC TNG card to the back of your phone to scan.
Step 9: Choose your activation date.
Step 10: Make your payment by using TNG eWallet balance.
Step 11: Scan your card once again. This final scan activates your pass based on your chosen date and links it to your card.

16. Where do I see my previously purchased My50 passes?

After completing your purchase, the My50 pass will appear under the "My Passes" section. You can also view your past purchases under "Purchase History". You will be able to see which card the pass is linked to and the active dates. Advance passes will also be displayed based on your chosen date.

FREQUENTLY ASKED QUESTIONS (FAQ) – MY50 UNLIMITED TRAVEL PASS ON TNG EWALLET APP

17. **Why are some cards greyed out and not clickable on my TNG eWallet app?**
    Cards will appear greyed out if:
    - They are not Enhanced NFC-enabled TNG cards, or
    - They are expired

    Only valid Enhanced NFC-enabled cards can be used for My50 purchases on Travel Pass.

18. **It says my Enhanced NFC-enabled card is expiring soon — can I still use it?**
    Unfortunately, no. If your Enhanced NFC-enabled card is set to expire within the next 60 days, you won't be able to use it to buy a pass. Please use another valid Enhanced NFC-enabled TNG card.

19. **Can I reload my Enhanced TNG card using the same eWallet account while the My50 Pass is active?**
    Yes, you can. My50 Pass is valid only for travel on Rapid KL services. You can still reload and use your Enhanced TNG card for other transactions like tolls, retail, or parking — all using the same eWallet.

20. **Can tourists buy the My50 Pass?**
    No. The My50 Pass is available exclusively to Malaysian citizens with valid MyKad or MyTentera identification.

21. **I am a student below 12 years old. Can I purchase the My50 Pass through eWallet?**
    Currently, users must be able to operate their own TNG eWallet app and hold an Enhanced TNG card to purchase the pass. Children under 12 may not qualify unless they meet these requirements.

22. **Can I buy a My50 Pass for my child or parent?**
    No. Each person must have their own TNG eWallet app account and Enhanced TNG card. The pass must be activated and used by the cardholder directly.

23. **Can I link My50 pass from TNG eWallet app to my MyKad?**
    No, My50 passes purchased via Travel Pass on TNG eWallet app can only be linked to an Enhanced NFC-enabled TNG card. They are not compatible with MyKad.

24. **Can I buy My50 Pass now and activate it only when I start using it?**
    Yes, you can purchase the My50 from Travel Pass TNG eWallet app in advance, and it will be activated starting from the date you have selected.

25. **How far in advance can I set my My50 Pass start date?**
    You can schedule your My50 Pass to start up to 30 days in advance when using Travel Pass on TNG eWallet app.

26. **Can my My50 pass be renewed automatically every month?**
    Currently, automatic renewals are not available. Each pass must be purchased manually via Travel Pass on TNG eWallet, giving you full control over when to activate your next pass.

27. **If I subscribe the My50 in Klang Valley, can I use it on Rapid Penang or Rapid Kuantan?**
    No. The My50 Pass is only valid for Rapid KL trains and buses within the Klang Valley. It cannot be used in Penang or Kuantan.

28. **Can I use My50 for ERL or KTM Komuter?**
    No. The My50 Pass is valid only for Rapid KL rail and bus services. It does not apply to ERL (Express Rail Link), KTM Komuter, or other non-Rapid KL services.

29. **Can I subscribe My50 pass through Travel Pass on the TNG eWallet and My50 at the Rapid KL Customer Service Counters at the same time with the same active period?**
    No. Any overlapping passes with the same active period are not allowed.

FREQUENTLY ASKED QUESTIONS (FAQ) – MY50 UNLIMITED TRAVEL PASS ON TNG EWALLET APP

30. **I already have a My50 Pass linked to my MyKad. What happens when My50 Pass on Travel Pass is launched?**
    Your current My50 Pass linked to your MyKad will remain valid until it expires. After that, you can start subscribing your next My50 Pass through Travel Pass on the TNG eWallet app and link it to your Enhanced NFC-enabled TNG card.

31. **Can I buy a My50 Pass on Travel Pass while my My50 Pass on my MyKad is still active?**
    Yes, you can — but you must purchase the My50 Travel Pass in advance, and it can only be activated after the expiry of your existing MyKad.

32. **How do I pay for a My50 pass in Travel Pass on TNG eWallet?**
    Payment will be deducted directly from your TNG eWallet balance. Before making a purchase, make sure your wallet has enough funds to cover the full price of the pass.

33. **I don't have an Enhanced NFC-enabled TNG card. Can I still purchase the My50 Pass on the TNG eWallet app?**
    No. Regular (non-NFC) cards are not compatible with this feature. To purchase and activate the My50 Pass on the TNG eWallet, you must have:
    - An Enhanced TNG card with NFC functionality
    - An NFC-enabled smartphone
    - A registered TNG eWallet app account with eKYC verification completed

34. **Do I need to reload RM50 into my Enhanced NFC-enabled TNG card to buy the My50 Pass on the TNG eWallet?**
    No. The RM50 will be deducted from your TNG eWallet, not from your card balance. However, your card must maintain a minimum balance of RM5 to remained active for fare gates.

35. **Why can't I subscribe my My50 pass? It says I already have an active My50 pass.**
    Each Enhanced NFC-enabled TNG card can only hold up to two (2) My50 passes:

    - 1 active pass, and
    - 1 advanced pass

    If you have already reached this limit, you'll need to wait until one expires before subscribing another.

36. **It says this card has reached the maximum number of pass purchases. Why?**
    Each Enhanced NFC-enabled TNG card can hold only 2 passes at a time. If both slots (active and advance) are full, you'll need to wait until one pass ends before linking a new one.

37. **I have selected a start date and got a message that I already have a pass on those dates. What should I do?**
    You will need to choose a different start date. Travel Pass does not allow you to have two (2) My50 passes with overlapping active periods, even if one was bought at Rapid KL Customer Service Counters or any Rapid KL bus hubs.

38. **I still can't subscribe a pass — what else could be the problem?**
    Other common reasons include:

    - You already have an active pass-through Travel Pass or Rapid KL Customer Service Counters
    - You bought an open-dated pass from Rapid KL Customer Service Counters that hasn't been used yet
    - You have issued an auto-renewal My50 pass at Rapid KL Customer Service Counters.

Make sure none of these overlap with your selected start date.

39. **There is an error after scanning my card — what should I do?**
    If something goes wrong after the second time you scan the card

    - Try to scan again — if it works, your pass will activate
    - If it fails, don't worry — you'll be automatically refunded and try to subscribe again

    If you exited the app midway, just open Travel Pass, scan your card again, and check that the pass was properly linked.

40. **What should I do if my payment goes through, but the card scan fails?**

    If your payment is successful but the second card scan fails and your My50 Pass cannot be activated, don't worry — the system will automatically refund the payment to your eWallet within 3–5 business days.

    - Before attempting the second scan, please wait at least 60 seconds after the first scan to ensure the system has enough time to process your request.
    - Once your refund is reflected in your eWallet, you can try the process again.
    - If the refund does not appear after 5 business days, please contact TNG eWallet Customer Support for further assistance.

41. **What if my Enhanced NFC-enabled TNG card becomes faulty or unreadable after I've purchased My50 pass on the TNG eWallet? Can I get a refund?**
    If your card is unreadable after purchase, kindly contact TNG Customer Service. Refunds are not automatic and will be reviewed on a case-by-case basis.

42. **Can I still buy the My50 pass at Rapid KL Customer Service Counters or any Rapid KL bus hubs?**
    Yes, you can still buy the My50 pass at Rapid KL Customer Service Counters or any active Rapid KL bus hubs. Just take note: if you're buying it at a counter, you can only link the pass to your MyKad, not to an Enhanced NFC-enabled TNG card. My50 purchased at the Rapid KL Customer Service Counters or any Rapid KL bus hubs cannot be activated concurrently with the My50 purchased Travel Pass in the eWallet.

43. **Can I transfer my My50 Pass on the TNG eWallet to another card?**
    No. Once linked, the My50 pass is permanently tied to that Enhanced NFC-enabled TNG card until it expires. It cannot be transferred or shared.

44. **Can I transfer my My50 Pass purchased on the TNG eWallet to someone else?**
    No. The My50 pass purchased on the TNG eWallet is non-transferable and is meant to be used solely by the individual who activated it.

45. **Can I link my family member's My50 pass to TNG eWallet?**
    No, each person must purchase their own My50 pass using their own Enhanced NFC-enabled TNG card and their personal TNG eWallet account. Passes cannot be bought on behalf of others.

46. **Can I continue using the My50 pass if I change phones?**
    Yes. Your pass is stored on your card, not your phone. As long as you log into your same personal TNG eWallet account, you can use a different phone without issue.

47. **Do I need to maintain a minimum balance on my Enhanced NFC-enabled TNG card while using the My50 pass?**
    Yes. Your Enhanced NFC-enabled TNG card must maintain a minimum balance of RM5 to stay active and allow gate access, even though travel is covered by the pass.

48. **What should I do if I can't enter the station even though I have a valid My50 Pass?**
    If you're unable to enter the station despite having a valid My50 Pass, please approach the station counter staff for immediate assistance. They will help verify your pass and, if the issue is due to a technical error, guide you on the next steps. For further assistance, you may also contact the Touch 'n Go Customer Service Centre via the hotline listed on our official Touch 'n Go website.

49. **When should I renew my My50 Pass on the TNG eWallet?**
    You can renew the My50 pass any time after your current 30-day cycle ends. The new pass will start from your chosen activation date — so plan accordingly to avoid disruptions.

50. **Can I get a refund if I cancel my My50 pass on the TNG eWallet?**
    No, all My50 passes purchased through Travel Pass on TNG eWallet are non-refundable, including if you change your mind or your travel plans.

51. **What if my NFC TNG card that is linked with My50 gets lost or stolen?**
    If your TNG NFC Card (which is linked to your My50 pass in the TNG eWallet app) is lost or stolen — don't worry! Here's what you can do:
    - Terminate the lost card through the TNG website
    - You need to wait for the pass to expired and then you can purchase a new one using a new Enhanced NFC-enabled TNG card.

    For further assistance, you may also contact TNG Customer Service via the Help section in your TNG eWallet app or call the hotline listed on our website.

52. **Will my My50 pass still work if I lose my internet connection?**
    Yes! Once your My50 pass is successfully linked to your Enhanced NFC-enabled TNG card via Travel Pass, you don't need to stay connected to the internet to use it at the gates. Just tap your linked TNG card at the gates.

53. **Can I use my Enhanced NFC-enabled TNG card for tolls and parking after linking My50?**
    Yes, your Enhanced TNG card will still work for tolls and parking — even with a My50 pass linked to it. Kindly ensure your Enhanced TNG card has sufficient purse value. However, the My50 Pass is only valid for travel on Rapid KL services.

54. **Can I use my TNG Charm for My50 Pass?**
    Yes! My50 passes can also be linked to TNG Charms that have Enhanced NFC capabilities — functionally the same as an Enhanced NFC-enabled card.

55. **Are Rapid Kota and Rapid Kembara Pass available on Travel Pass?**
    At the moment, only My50 Pass is available for purchase via Travel Pass on TNG eWallet app.

For more information and enquiries, please email us at suggest@rapidkl.com.my or contact us at 03 – 7885 2585 on Monday to Sunday, from 6.00am to 12.00am.
